¹ In Italy, some technical specifications have been established to define what kind of packaging can be recycled and the quality of the secondary material from the recycling (e.g. colours, material density, metallisation, etc.)

Legend

Packaging waste stream infrastructure	Rating	Description
available	✓	There is an area-wide collection of the material (> 50*%)
limited available	~	The material is collected in some regions or municipalities, but the total amount is 10 – 50*%.
not available	✗	In this country is no waste stream for that material available or the collected waste amount for that material is < 10*%.
No information	n.i.	No information is available for this country at the time. There will be further research.
